

Objective

As a fresh graduate, I have aimed to become a full-stack developer. At the moment, I am now working as a front-end developer to step one step closer to my goal. And I'm still looking for more opportunities, more challenges to build up working experiences and honing my both soft and technical skills.

Education

INFORMATION TECHNOLOGY COLLEGES TPHCM(ITC)

JUN 2019 - MAY 2021

Major: Website Development

GPA: 8/10

Work Experience

WEB DEVELOPEMENT

JUNE 2020 - PRESENT

When I learning and do some project

- I have research and use a lots of javascript framework(bootstrap, reactjs, angular 2+...)
- I have firmly mastered the fundamentals of JavaScript, JQuery, HTML ,HTML5, CSS , CSS3, **Angular**, Web Programming Skills, Web User Interface Design(UI), Web Service(REST)
- During the study in school i work many project with Angular. Working with Angular service, Directive, Pipe, Module,Plugin.
- I also do something micro service with NodeJs-Express, MongoDB, SQL server, Firebase.

AS A FRESHER I DON'T HAVE ANY REAL PROJECT YET.

2028 - 2020

BELOW IS SOME PROJECT I DO FOR MY CURIOUS AND FOR MY HOOPY

(During School)

- Chat App Messenger Angular/Ionic. It was made by ionic so I don't built it yet but you can't see my code here: <https://github.com/kakahuy113/ionic4ChatApp>.
- Angular Quiz Test: <https://assignment-angularr.herokuapp.com/>
- CV Online: <https://cv-onl.herokuapp.com/>

Additional Information

Here I would like to speak about myself a bit.

- I'm like playing sport such as badminton, soccer but maybe not playing well 😊😊😊
- I am from planet with a passion of Web, Graphic and Interactive design. I specialise in standards compliant websites with a focus on usability. Enthusiastic about life, design and innovation.
